ABOUT PRUDENCE PHARMA

We have equipped with modern manufacturing facilities and state-of-the-art technology for achieving Quality products manufactured by us.

We are specializes in the development of new processes technology with latest technical know-how which can be designed to ensure the non-infringement of patents, through the application of alternative synthetic procedures and to develop and manufacture of various Pharmaceutical bulk drugs [API] and pharma intermediates with highest quality, functionality and cost effectiveness.

Our services range from the manufacture of patent free products to the manufacture of novel products through bilateral agreement between ourselves and our clients.

Within the short span of time we have earned good reputation in manufacturing of Pharmaceutical bulk drugs [API] and pharma intermediates for consistency in quality and supplies at right time at right cost. In the market today we are strong, reliable, consistent manufacturer of key APIS and pharma intermediates for global markets. We have established our selves as largest manufacturer of GLIBENCLAMIDE in world.

We are fast growing integrated and GMP & ISO 9001:2015 certified Pharmaceutical bulk drugs [API] and pharma intermediates manufacturing company.

We have an excellent multipurpose facility meeting C-GMP standards. Since, its commencement we are reliable manufacturer and exporter of API and pharma intermediates. We manufacture our own products, under neutral labels as required by the buyers as well as contract manufacturing. Catering as per customers requirements is our specialization.

OUR VISION

To be a leading pharmaceutical bulk drugs [API] and pharma intermediates manufacturing company in India. To become a significant global player by innovative technology and providing high quality, cost effective and affordable products.

OUR MISSION

To Be the leading manufacturer of API's & intermediate inputs through adoption of State of the Art and Innovative process technology.

To be get sustainable economic growth based on excellence manufacturing technology driven by ethical business practices, professionalism, dynamism and social responsibility.

To develop, manufacture and market of Active Pharmaceutical Ingredients following cGMP standards, which will help to improve the health of Human Life.

To create value and respect for all our customers, Suppliers, partners, and employees while applying environmentally safe and socially responsible business practices.

To provide Consistent Quality, Timely delivery and competitive price to the customers.

QUALITY POLICY

We are committed to manufacture and supply highest Quality products to meet pharmacopoeial, regulatory & customers' need at competitive price and on time delivery.

We are committed to fully support to continual improvement & up gradation of our systems, process technology, employee competence, adopting Current Good Manufacturing Practice & Quality Management System to enhance the international quality standard of our products and services.

QUALITY CONTROL & QUALITY ASSURANCE

At Prudence we believe in supplying quality products. In order to enforce quality, products manufacturing process is carried out under strict supervision of our technically and competent staff as per the predefined processes and procedures. We ensure that the GMP standards are met and products comply with international quality standards.

We have documented Quality control manual, Validation manual, Training manual, all type of standard operating procedures [SOP], a calibration program and extensive process controls as per cGMP & ISO 9001:2015 certification to stand with the best in the world. We are providing open communications with our customers and suppliers.

We are working with a well defined quality control and quality assurance Plan. Quality control measures have been checked at various stages of production starting from approval of raw materials, in-process materials, Intermediates stage and extends to analysis of finished products to ensure consistent quality so, that our customers get value added products.

Active Pharmaceutical Ingredients [API]

Sr.No	Name of Products	CAS No	Use for
1	Glimepiride	93479-97-1	Anti-Diabetic
2	S-Amlodipine Besylate [Levamlodipine]	150566-71-5	Anti-Hypertensive
3	Amlodipine Besilate	111470-99-6	Anti-Hypertensive
4	Torsemide	56211-40-6	Loop Diuretic
5	Silodosin	160970-54-7	Treatment of benign prostatic hyperplasia
6	Celecoxib	169590-42-5	NSAID
7	Etoricoxib	202409-33-4	NSAID -Rheumatoid Arthritis
8	Febuxostat	144060-53-7	Anti-gout
9	Glibenclamide [Glyburide]	10238-21-8	Anti-Diabetic
10	Memantine Hydrochloride	41100-52-1	Anti-Alzheimer's disease
11	Pirfenidone	53179-13-8	Treatment of IPF
12	Amlodipine maleate	88150-47-4	Anti-Hypertensive
13	Amlodipine camsylate	652969-01-2	Anti-Hypertensive
14	Phenylephrine Hydrochloride	61-76-7	Decongestant
15	Rivaroxaban	366789-02-8	Anticoagulants & treatment of DVT
